

Research and Thought Leadership Intern

POSITION DESCRIPTION

The Research & Thought Leadership Intern will engage in short-term, project-based work in a placement at partner organization, Singularity University. The internship is designed to deliver meaningful, tangible outcomes for the host organization while providing the student with practical, real-world experience in their field of study that will give them an edge when competing for employment or graduate school after graduation.

Ideal Fields of Study: Philosophy, Political Science, English, Communication, or related areas

Team Assignment: Research, Expertise and Knowledge

What the student will do:

- Support the Singularity team in researching emerging technologies shaping the future and their impact on society
- Assist in drafting thought leadership positioning pieces supporting Singularity's view on technological and ethical issues
- Identify and synthesize trends across tech, ethics, and society
- Participate in brainstorming sessions for future speaking topics or programs

Traits Singularity is looking for:

- Strong analytical and writing skills
- Experience with AI tools
- Curiosity about global technological and societal trends
- Interest in innovation and technology
- Comfort summarizing and simplifying complex topics
- Organized, self-directed, and eager to learn from thought-leaders
